

## Bohler US 8 Serrated Cutting Rule

### Description

Bohler® US 8 is a center bevel rule that is designed to combine the benefits of a side bevel rule with the convenience of a center bevel rule. This unique profile provides reduced edge crush along with improved stripping. Although this rule has different finishes on each side, the tip is still precisely in the center. This is very important to obtain dimensional accuracy when cutting multiple out designs.

### Physical Properties

Quality	TOP 36 / TOP 40
Body Hardness	~340 HV (35 HRC) / ~340 HV (40 HRC)
Edge Hardness	~390 HV (35 HRC) / ~390 HV (40 HRC)
Thickness	4
Bevel Type	CF

### Availability & Ordering Information

Steel rule is available in four bevel profiles:

- CFB: cutting edge in middle, ground both sides: cutting edge on side
- CF: cutting side in middle, ground one side
- SF: cutting edge on side
- SFS: cutting edge on side, ground on short bevel

Steel rule is sold in coils for auto-benders, (wound clockwise CW or anticlockwise ACW). Also available in dispenser coils and boxed strips.
